SUMMARY

Sixth-semester Information Systems student at President University, specializing in Data Science, with a strong interest in Data Analytics, Business Intelligence, and Software Development. Through academic projects, I have developed interactive dashboards, web-based applications, and AI-enhanced solutions while strengthening my analytical and problem-solving skills. I also have a strong interest in UI/UX design, visual communication, and Quality Assurance, and enjoy exploring new technologies including AI-powered tools to create meaningful digital solutions. Currently seeking internship opportunities to contribute and grow across data analytics, software development, quality assurance, UI/UX Design, and Graphic Designer domains.

EDUCATION

President University

Information System, Faculty of Computer Science (IPK : 3.81 / 4.00)

Sept 2024 – Present

SMA Negeri 2 Kotabumi

High School

Jul 2021 – Apr 2024

PROJECT

DeclarAI, AI-Powered Customs Declaration Automation

June - Present

React · Vite · Figma · FastAPI · Claude API (Anthropic)

AI Open Innovation Challenge 2026 - National Competition | Logistics Category

- Designed and developed the frontend dashboard for an AI-powered customs declaration automation system for Cikarang Dry Port case
- Built responsive UI components using React and Vite to support document upload, declaration review, manual field editing, and submission tracking
- Collaborated with backend team to integrate REST API endpoints for real-time declaration status and dashboard statistics
- Contributed to UI/UX design, ensuring an intuitive interface for customs operators handling AI-extracted declaration data

Kitchen Equipment Sales Analysis Dashboard – Data Analyst

July 2026

SQL (Google BigQuery), Python (Google Colab), Google Looker Studio

- Analyzed 10,000+ retail sales transactions to evaluate sales performance across products, categories, and cities.
- Wrote SQL queries in Google BigQuery for data extraction, aggregation, filtering, and business analysis.
- Performed data cleaning, transformation, and exploratory data analysis (EDA) using Python (Pandas).
- Developed an interactive dashboard featuring 3 KPIs (Total Sales, Total Orders, Completed Rate) and 4 business visualizations (Monthly Sales Trend, Sales by Category, Top 5 Products, and Sales by City).
- Generated business insights and recommendations to support data-driven decision-making.

Sales Performance Dashboard using Microsoft Excel – Data Analyst

June 2026

Microsoft Excel (Advanced Formulas, Pivot Tables, Pivot Charts, VBA Macro)

- Analyzed 10,000+ sales transaction records using Microsoft Excel to identify sales performance and business trends.
- Cleaned and transformed raw sales data using advanced Excel formulas and data validation techniques.
- Built Pivot Tables and Pivot Charts to summarize sales by product, category, city, and transaction status.
- Developed an interactive dashboard with VBA Macro to automate reporting and improve data accessibility.
- Generated business insights to support data-driven decision-making.

DVD Rental Customer Behavior Dashboard (GenAI Edition) – Developer

Apr – May 2026

Python · FastAPI · Claude API (Anthropic) · PostgreSQL · Vanilla JS · Scikit-learn · Plotly

- Collaborated in developed AI-enhanced business analytics dashboard featuring a chatbot assistant (Aria) for natural language interaction.
- Developed the Growth Opportunities analytics module by analyzing customer behavior, revenue trends, and potential business opportunities.
- Created interactive data visualizations to support business insight generation and data-driven decision-making.
- Demonstrated AI-powered analytical features, including customer segmentation, revenue analysis, and root-cause analysis for the final project presentation.

Khasanah Sari Bakery, Accounting Information System (AIS) – Frontend Developer

Apr – May 2026

Node.js · Express · React · PostgreSQL · Railway

- Developed user interfaces for a web-based Accounting Information System using React.
- Implemented responsive and user-friendly pages to support business operations, including sales, inventory, and financial management processes.
- Collaborated with backend and database developers to integrate frontend components with system functionalities.
- Contributed to testing and interface improvements to enhance usability and user experience.

DVD Rental Customer Behavior Analytics Dashboard – Data Analyst

Mar – May 2026

Python · Django · PostgreSQL · Scikit-learn · Plotly

- Developed the Growth Opportunities analytics module within a DVD rental customer behavior dashboard.
- Analyzed customer transaction data to identify customer behavior, revenue trends, and potential business opportunities.
- Queried and processed data from PostgreSQL using SQL and Python for business reporting and analytical insights.
- Created interactive dashboards and data visualizations using Django and Plotly to support data-driven decision-making.

ORGANIZATION AND EVENT

President University Major Association Information System

Head of Division Multimedia, Design, and Documentation

Oct 2025 – Present

- Lead and coordinate the MTDD division in managing visual content, documentation, and digital media activities.
- Supervise team members in designing materials and event publications.
- Collaborate with other divisions to support organizational events and programs.
- Ensure timely delivery of creative and technical assets for organizational needs.

Member of Division Multimedia, Design, and Documentation

Oct 2024 – Sept 2025

- Designed Instagram feed content to support event promotion and organizational branding.
- Created visual content for social media platforms, ensuring consistency with organizational identity and communication goals.

Selected Events:

▪ TechSprint 2026 3IN1 (PUMA IS) – PIC, Design	Jan 2026 - Jun 2026
▪ Instrumental 2025 (PUMA IS) – PIC, Multimedia, Design, and Documentation	Oct 2025 - Des 2025
▪ Computer Science Atmosphere X PT KAI (PUFA Compsci) – Design	Feb 2025 - Oct 2025
▪ Company Visit Bank Indonesia 2025 (PUMA IS) – PIC, Multimedia, Design, and Documentation	Dec 2024 - Sep 2025
▪ Golden Code Hackathon President University x UNITAR Malaysia – Design	Dec 2024 - May 2025
▪ Temu Alumni Information System (PUMA IS) – Public Relation External	Jan 2025 - Mar 2025
▪ EXPORA PUMA Information System (PUMA IS) – Multimedia, Design, and Documentation	Nov 2024 - Mar 2025
▪ Instrumental 2024 (PUMA IS) – Liaison Officer	Oct 2024 - Jun 2025

ACHIEVEMENTS

- 2nd Place – Poster and Banner Design DIGIAKSI, Social Project Exhibition President University | 2025
- 1st Place – Technology Category (Zenmon), Economic Survival Project Exhibition President University | 2025

CERTIFICATION

Data Analytics with AI Bootcamp

KarirNex x PT Ebiz Prima Nusa | 2026

- Completed an intensive bootcamp covering Microsoft Excel, SQL (Google BigQuery), Python (Google Colab), and Google Looker Studio.

Microsoft Excel Bootcamp

KarirNex x PT Ebiz Prima Nusa | 2026

- Completed hands-on training in advanced Microsoft Excel for data analysis and dashboard development.

Junior Web Developer (JWD)

BNSP & BPPTIK | 2025

- National competency certification in Junior Web Development

ADDITIONAL INFORMATION

Technical Skills

- Programming & Query Languages: Python, SQL, JavaScript, PHP, VBA Macro
- Data Analytics & BI Tools: Excel, BigQuery, Looker Studio
- Data Science & ML: Pandas, NumPy, Matplotlib, Plotly, Seaborn, Scikit-learn, EDA, Data Cleaning, Dashboard Development
- Frameworks: FastAPI, Django, Streamlit, React, Node.js, Express
- Databases: PostgreSQL, MySQL, SQLAlchemy
- Tools: Git, GitHub, Google Colab, Visual Studio Code, Postman
- Design: Figma, Canva

Languages

- Bahasa Indonesia (Native)
- English (Intermediate)
